

My theatre profile

Handout CTP1

Use this sheet to audit your skills and identify your own approaches and interests. This will provide you with a profile that you can use when you begin to decide who to work with. Your ensemble may be made up of people with similar interests, or you might choose to work with people who have different skills and interests. Either way, you will need to be able to present your skills, approaches and interests to others in order to form the ensemble group.
